The Indian Institute of Information Technology Design and Manufacturing, (IITDM Kancheepuram) has launched new B Tech programme in Smart Manufacturing, with an intake of 40 students from this academic year.

Indian Institute of Information Technology Design and Manufacturing

Chennai: The director of the institute, Prof Gnanamoorthy, said that the new four-year

undergraduate programme evolved after a series of brainstorming sessions with experts from leading industries and academicians. The new program will have courses on Big Data, Networks, Sensors and Controls, in addition to manufacturing processes and systems engineering. The programme was launched by the Director, Prof Gnanamoorthy and Dr. Sudarsan Rachuri from Advanced Manufacturing Office, US Department of Energy was the guest of honour for the launch of the programme on Thursday.
